Easy to understand, easy to use.

Actionable Cash Pricing

ful.'s Smart Shopping Tool provides actionable cash pricing for each episode of care, prescriptions at local pharmacies and more.

Physician First Care

Free, unlimited virtual care on demand 24/7/365, with physician-led navigation for next steps within the cash pay ecosystem.

Education

Curated curriculum, gamified quizzes, and in-app resources support cash pay users on-demand and while they are making buying decisions about care.

Gain control and peace of mind with comprehensive, cost-effective healthcare solutions at your fingertips.

CirrusMD

Immediate Virtual Care Without the Cost

Offering no-cost access to virtual care, CirrusMD allows uninsured employees and their families to talk to a physician in 60 seconds or less via chat, audio, or video. Ideal for both urgent and primary care needs, CirrusMD boasts an 80%+ resolution rate, significantly reducing the necessity and associated costs of urgent care centers and emergency room visits. This service enhances job satisfaction by alleviating the financial stress of medical expenses.

Quizzify

Master Your Health with Educational Quizzes

Quizzify provides health literacy through engaging, trivia-style quizzes reviewed by doctors at Harvard Medical School. These quizzes tackle complex health topics, transforming them into understandable content that empowers employees to make informed, cost-effective healthcare decisions. This proactive approach to education helps curtail unnecessary medical spending and promotes overall wellness.

ful.™ CashPay

MedOne

Simplified Pharmacy Services, Cash Pricing Savings

Med One integrates with ful.CashPay to offer an efficient and cost-effective pharmacy solution. This service is particularly beneficial for managing chronic conditions with consistent medication needs, such as high blood pressure, heart disease, and diabetes, enhancing savings and adherence to treatment.

Tendo

Transparent, Upfront Pricing on Medical Procedures

Tendo, in collaboration with MDsave, allows uninsured employees to shop for medical procedures with clear, upfront pricing. By connecting users with trusted providers offering all-inclusive cash prices, Tendo ensures that there are no surprise bills. This transparent pricing model fosters a seamless cash-pay patient experience from start to finish, making healthcare more accessible and predictable. Plus, users can choose to pay over time with no fee, no interest financing.

Services that help members save and enroll in Medicaid

BeneStream

Personalized Assistance Navigating Medicaid and CHIP Enrollment

BeneStream offers specialized support to employees regardless of current insurance status by facilitating access to Medicaid, CHIP, and ACA health insurance plans. This service includes comprehensive screening, application assistance, and enrollment management, ensuring that employees leverage all available health resources. Continuous support is provided for annual re-enrollment and adjustments due to life changes, maintaining essential health coverage.

Goodbill

Expert Negotiation to Drastically Reduce Hospital Bills

Goodbill offers dramatic reductions in hospital bills by up to 95% through meticulous reviews for errors, medical necessity, and pricing benchmarks, all via the Ful.CashPay app. This service is 100% free on a per-employee-per-month basis and includes comprehensive support from initial screening through final settlement, significantly easing the financial burden of medical costs for uninsured employees.

Each service integrates seamlessly through the **ful.CashPay** app for a comprehensive healthcare experience.
